#### Roszík Dániel Gábor

Születési helye, ideje: Budapest, 1975. február 11., Anyja neve: Emericzy Enid

### List of companies with Sphere loans

#### Green energy

#### Komárom-Esztergom Megyei Parképítő és Kertészeti Zártkörűen Működő Részvénytársaság (Parképítő Zrt.)

Seat: H-2890 Tata, Környei út 24.  
Co. reg. no.: 11-10-001443

The company's activities include the construction of motorways and environment protection jobs around railways (earthmoving, grassing (special procedures are also applied), planting and construction of wild animal fence), park and garden creation (planning, planting, maintenance and sale), flower arrangement and trade as well as recultivation.

The company's most significant activity is the growing of energy reed, for which the demand seems to be growing in the future as a possible form of bioenergy. The company has dealt with the growing and experimental growing of energy crops (poplars, willows, white acacia) since 1995. That year the company also started the selection and processing – for scientific purposes – of energy reed (*Miscanthus*) type crops, as a result of which *Miscanthus Sinesis* "Tatai" has been registered as a state accredited crop type.

#### Research and development

#### Aranyszarvas.com (Aranyszarvas-Gomba Kft.)

Seat: H-1053 Budapest, Egyetem tér 5., III. em. 12.  
Co. reg. no.: 01-09-940618

The company deals with the development, production and sale of own recipe specialities. The emphasis is mainly on development. The Company's experts are

developing new specialities from time to time and participate in food research programmes with larger companies. In addition to the developments completed, at present the company is working on the development of meat products made with truffle (sausages and Mangalitsa bacon with truffle). The products developed fill a market niche in Hungary and are very much needed for export.

#### Health and social care

#### Meditrió Kft.

Seat: H-2083 Solymár, Külső Vasút út HOR iparterület  
Co. reg. no.: 13-09-128938

The company manufactures and repairs orthopaedic products (ankle, knee, leg and spine braces, walking machines, prosthetic limbs, sewed products such as knee and angle supports, trusses, etc.) and sells other rehabilitation equipment (e.g. electric wheelchairs). The company sells, repairs and rents out orthopaedic products covered by the health insurance system and administers and disburses social security reimbursements on the basis of a valid contract. Individual samples are usually taken in hospitals and health centres, while the products are manufactured on the company's premises.

#### Medorg Health, Social Care, Cultural and Trade Bt.

Seat: H-1222 Budapest, Kócsag u. 6.  
Co. reg. no.: 01-06-112364

The company's main activity – within the framework of outpatient services – is the provision of paediatrician and child health care services.

#### Istenhegyi Pharmacy Pharmaceutical Retail Kft.

Seat: H-1012 Budapest, Logodi utca 19. A. épület, A lépcsőház, földszint 1.  
Co. reg. no.: 01-09-928949

Istenhegyi Pharmacy serves patients and customers on the upper floor of an office building in Istenhegyi Road (next to CBA), a much liked area in Buda near Kaáli Institute and Istenhegyi Clinic. A wide range of screening programmes was introduced together with Pharma Knowledge Sytem software, developed by the company itself, which ensures knowledge management as well as training and education for the employees.

#### Environmental protection and nature conservation

#### Lelenc Dog Rescue Association

Seat: H-2141 Csömör, Mező utca 45.  
Reg. no.: 4145  
Tax number: 18706244-1-13  
Statistical no.: 18706244-9499-529-13  
Website: [www.lelenc.hu](http://www.lelenc.hu)

The Association was established at the end of 2004 and was registered by the Company's Registry on January 3, 2005 as a public benefit company. The

Association's activity is based mainly on the physical rescue of severely injured animals and those who are in danger of being put to sleep. The Association takes care of nearly 200 dogs a year. They provide medical help and look for adopters. At least 50 dogs are cared for at the same time.

Most of the animals are transported to the Association from the Budapest Dog Pound, known as Illatos út Dog Pound. In addition to the websites of Illatos út and Lelenc KME, a forum was created on [elvestem.hu](http://elvestem.hu), where people can publish the data of dogs, lost or found, waiting for adopters. Volunteers monitor these data and update them on the basis of other websites. They also help dogs return their homes. Modern animal protection is based on prevention, which is castration. In light of this, all dogs are castrated. For safety purposes each dog is supplied with a microchip, even if their real owner has been found or they are adopted. The members of the Association work on a voluntary basis: they work in their free time, receive no money for their work and use their own vehicles. They do not have offices and do not hire employees. They do not have an animal shelter either as they lack the necessary financial resources to purchase the necessary area and build a shelter which would comply with legislative requirements. The animals are kept in hospitals, partner organizations, in guest houses where major discounts are offered or at other places where they are looked after for the time being.

## Culture and education

### **Óbuda Waldorf Foundation (Ó-Wald Nonprofit Kft.)**

Seat: H-1031 Budapest, Csikóvár u. 12.,  
Co. reg. no.: 01-09-928528

The company is planning the establishment of a new Waldorf education centre, which would comprise a nursery school, a primary school, a secondary school and a teacher training department.

## Job creation

### **Kontakt Foundation**

Seat: H-1035 Budapest, Váradi u. 17.  
Reg. no.: 7533

Kontakt Foundation was established in 1999. Its primary objective is the improvement of – economic development related – life quality, paying special attention to the research and development of the related new methods as well as the development and publication of procedures tailored to the needs of special target groups. The foundation is a public benefit company, which covers the whole country and finances itself from tenders. Its activities include research on jobs and careers, method development and the introduction of new methods in the case of domestic EU projects tendered or won. The foundation attends forums and trainings, organizes conferences to promote the development of human sciences and develops learning and supporting materials as well as manuals. By adapting to their needs, Kontakt applies development tools and methods that increase the competitiveness of those turning to them for help in the open labour market (e.g. rehabilitation and employment counselling, debt management, key skills development, etc.). Also, the company helps the training and employment of and promotes equal opportunities for those being in disadvantage in the labour market by providing services to them. Supporting the professional training of the low-educated and looking for employment for young skilled workers are major objectives.

### **SZETTI Kft.**

Seat: H-1024 Budapest, Rómer Flóris u. 4.  
Co. reg. no.: 01-09-071628

The company provides housekeeping services for office buildings and shopping centres. There has been a 30% increase in the number of employees for the last year. Employees are given the opportunity to work in 4-6 hours.

## Organic farming

### **Biokontroll Hungária Ellenőrző és Tanúsító Nonprofit Kft.**

Seat: H-1027 Budapest, Margit körút 1. 3. em. 16.,  
Co. reg. no.: 01-09-887295

In addition to the control and certification of the production of organic food and agricultural products, the Company's main activity also includes the publishing of *Biokultúra* magazine. At the same time, the Company participates in numerous research programmes that are related to organic farming and financed by means of tenders.
